What is the role of the CCG?

CCGs are groups of GPs who have taken over responsibility for designing and commissioning, or indeed buying, local Health Services, which will include planned hospital care, urgent and emergency care, most Community Health Services and Mental Health and Learning Disability Services

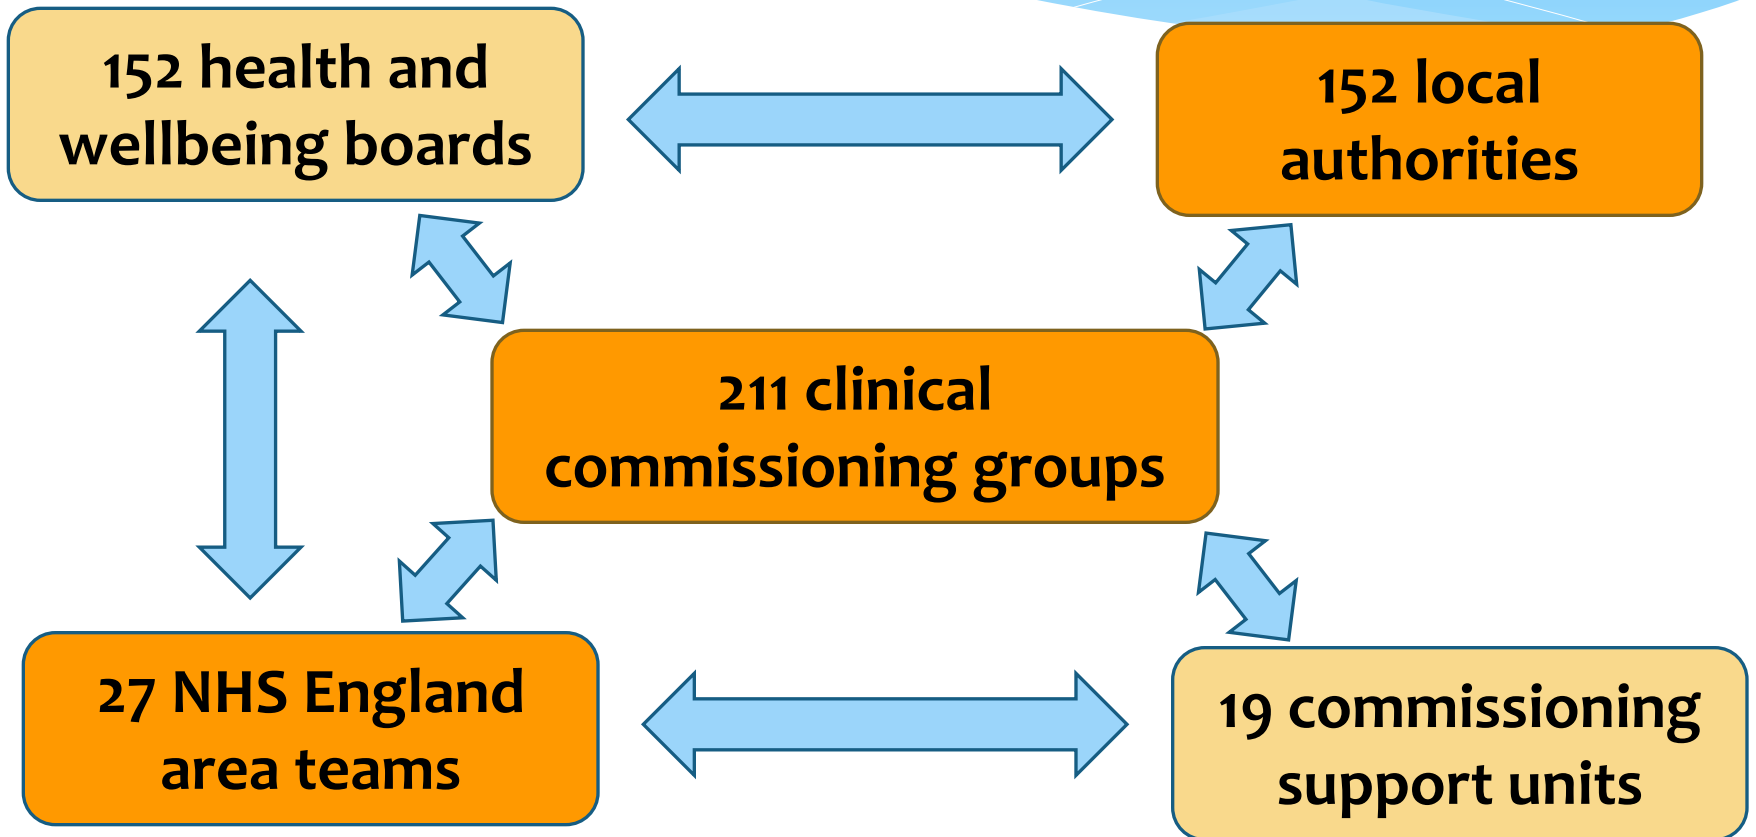

Our mission statement

“To have the courage to develop a health system that empowers the delivery of excellent outcomes founded on individual relationships which nurture compassion, respect and dignity”

How does the CCG fit in with the new NHS landscape?

Key issues and priorities for Shropshire

- * **Addressing Health Inequalities**
- * **Self Care and Empowerment of Patients**
- * **Quality and equality of care - consistent delivery of constitutional rights.**
- * **Sustainable services locally**

Working with the Voluntary and Community Sector Assembly

- * **Commitment to working together using the principles set out in the Compact**
- * **Shropshire Building Health Partnerships – collaborative learning programme**
- * **Members of the patient and public engagement committee**
