Energize Shropshire, Telford and Wrekin (also referred to as Energize or EnergizeSTW) is the County Sports Partnership (CSP) for the sub-region.

We are one of 45 CSPs across England. We work with a number of organisations within and beyond Shropshire, Telford and Wrekin to help people 'Get their Hearts Beating Faster', as we believe that there is an activity out there for everyone to become more active.

Energize STW forms an integral part of the (national to local and vice-versa) sports delivery system, embedding national programmes and initiatives at a local level for local people.

Energize STW became an independent organisation in 2012 and gained company limited by guarantee and charitable status.

Our independent status gives us a great deal of flexibility in who we work with to 'Help Get Hearts Beating Faster'.

Energize provide the following services to community groups and sports providers including clubs, coaches, schools, groups and individuals;

- Advice and guidance on community sport activity
- Knowledge and information services
- Brokering and facilitating partnerships
- Commissioning providers to deliver specific activity
- Training and education services
- Website, e-news and other communication services
- Development of resources
